

# Take the best seat!

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

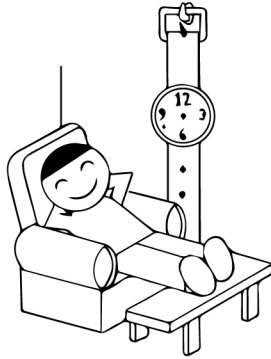

You will see and hear more.

# Ask clear questions and demand clear answers!

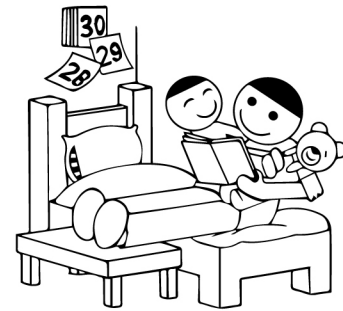

The world will be easier to understand if people use the right words.

# Take your time and create routines

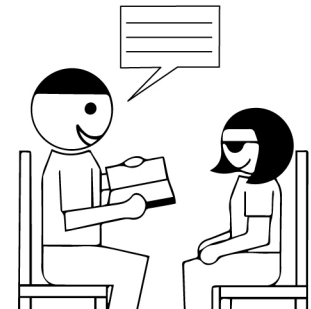

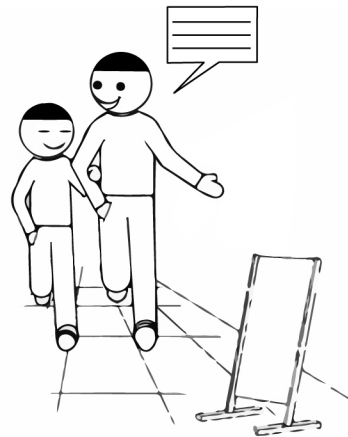

It takes more time to integrate the information coming from other senses.

When the events are predictable, the child can anticipate what is happening and feels more secure.

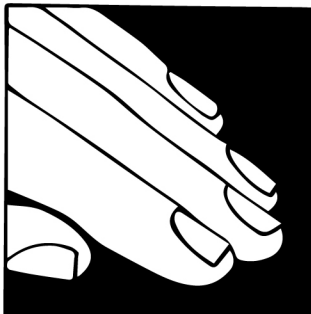

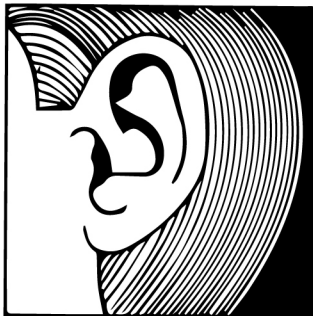

## Be clear!

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

The world will be easier to understand for the child if you describe it and explain what is happening.

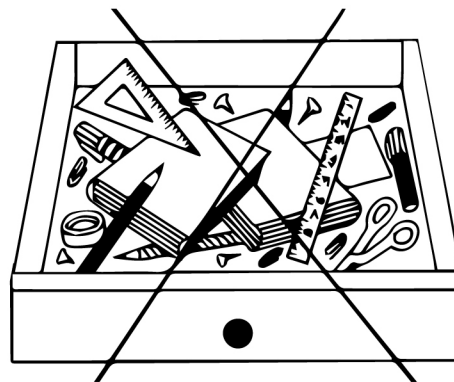

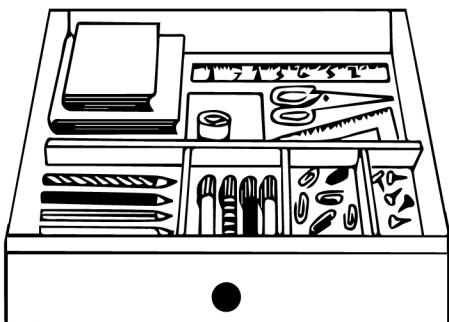

# Make the other senses take over!

When vision is weak, hearing, touch and smell can give a lot of information on what is happening.

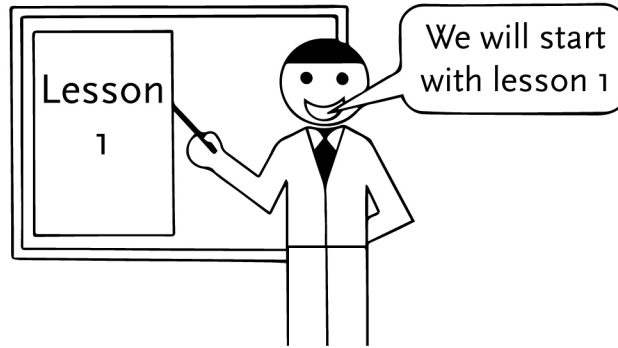

# Be more organized!

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

Keeping things in order will make it easier to find them.

# Say what you write on the board!

It will benefit every student in the class.

# Give the best seat!

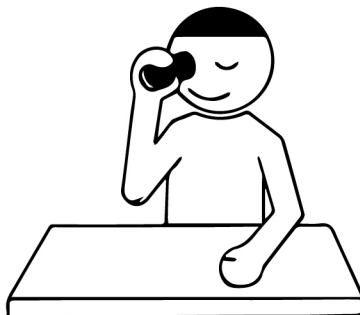

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

The student with a visual impairment  
can see and hear more.

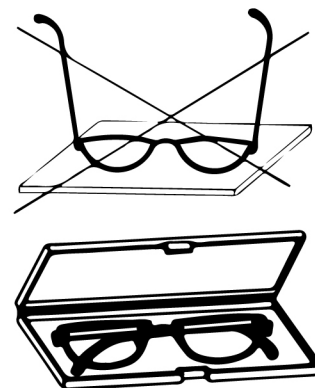

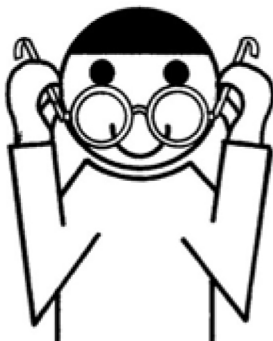

# Keep the monocular with you!

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

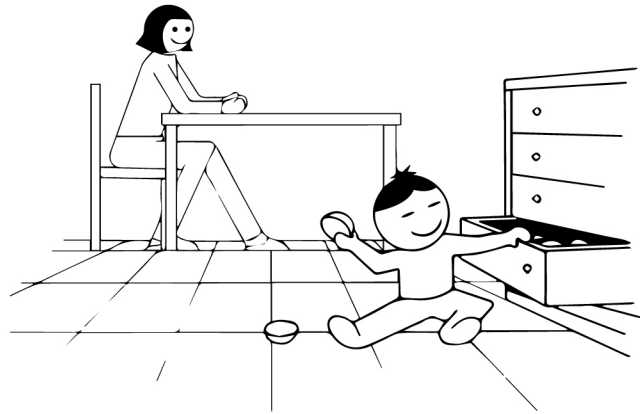

It will expand your visual world.

# Keep your lenses clean and clear!

Clean lenses will make you see more and keep your devices for longer.

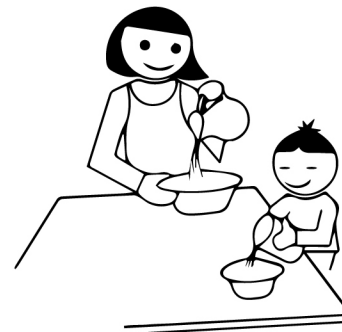

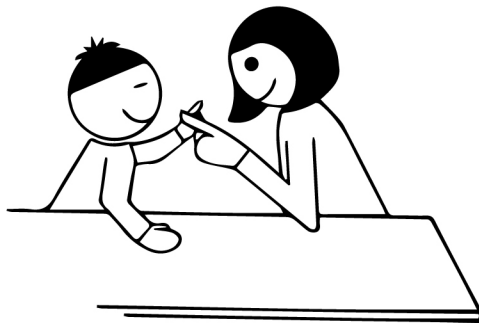

# Let him do it!

**Trust him: if you give him time, your child can play and do things like other children.**

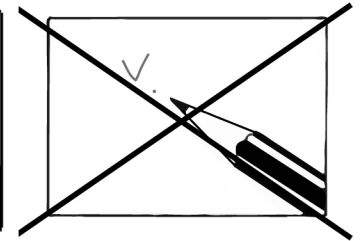

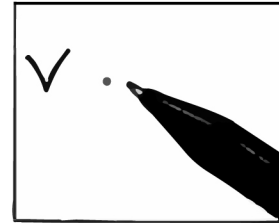

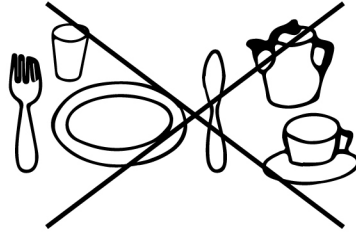

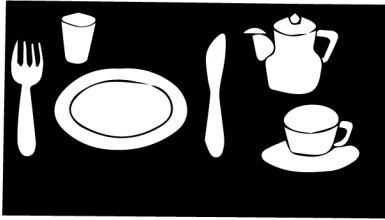

# Let him copy what you do!

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

**It is fun and your child will learn better.**

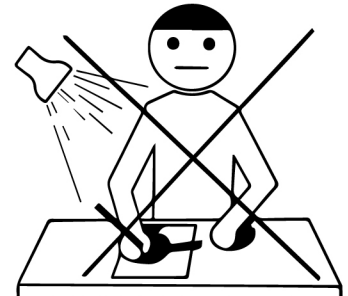

# Think about the contrast!

A good contrast between the object and its background makes you see more.

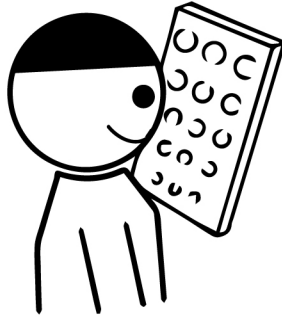

# Think about your light!

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

Optimal lighting makes you see more.

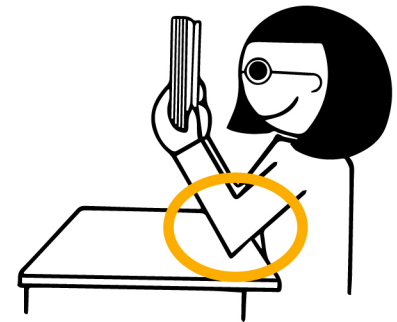

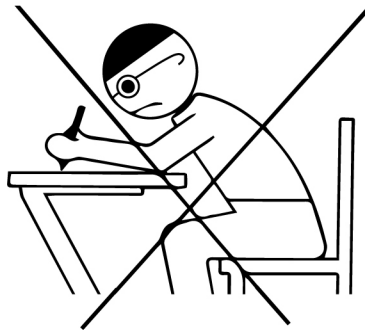

# Come closer and you will see more!

Moving closer to objects makes them look bigger.

# Think about your posture!

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

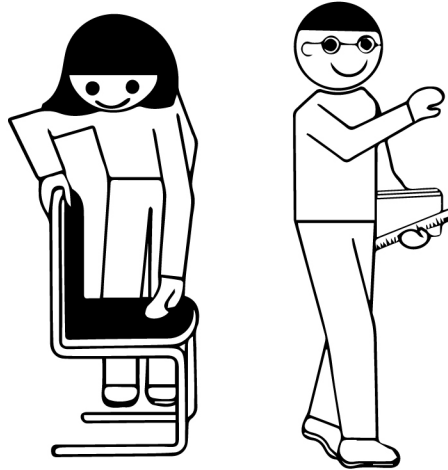

A good posture will keep you working for a longer time and avoid back or neck problems.

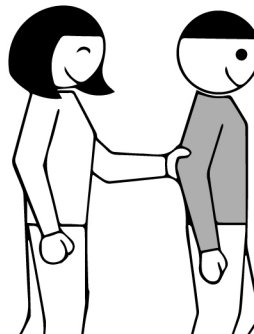

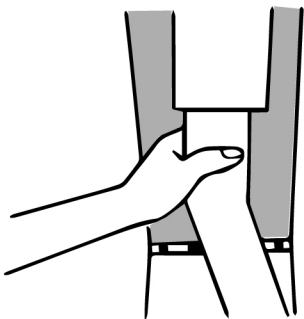

# Sit and walk using the right techniques!

Vision Training Center  
(+962) 6 429 4489 | 79 7616 425

Good strategies make your life easier.

# Move more safely with a sighted guide!

Useful techniques will allow you to go wherever you want.
